To registrate simply scan the QR Code.

PROGRAM

OCTOBER 6-10, 2025

DAY 1:

During the theoretical course "*The clinical foundation of full dentures*" you will refresh your knowledge of the discipline of full dentures for reproducible treatment success and consolidating from anatomic impression-taking to registration.

DAY 2:

With another theoretical part following our course "*The technical foundation of full dentures*" will refresh and consolidate your anatomical and prosthetic knowledge of the types and execution of the clinical and technical working steps which are required for crafted high-quality full dentures.

DAY 3 & 4:

Now we get into practice: The next two days are dedicated to the hands-on course "*Setup lingualized full dentures according to the GERBER concept*": After a self-performed model analysis, the anterior teeth and the lingualized posterior teeth will be set up in wax.

After this hard work, we will invite you to a surprise trip to discover a nice spot of Switzerland.

DAY 5:

On the last day, you will learn efficient, systematic steps for investing with silicone cuffs, isolating models and conditioning the artificial teeth to complete their setup. This day corresponds to our course "*The material dentures are made from*".
